Seedless Limes from MEXICO

The Persian seedless lime is a green fruit larger and less sour than its cousin with seeds, making it more popular in international markets because its longer shelf life, more juice and great taste. The fruit is harvested from trees that typically grow in tropic climates like Mexico, that has an excellent conditions for **High Quality** fruit. Production alternates between periods of abundance and periods of lower yields. For Mexico peak production is between May and December. Sizes and Quality also vary depending on the seasons and rainfall. The sizes are represented by the number of fruit pieces per box.

Our Seedless Persian Lime are Proudly and carefully packed in our Brand **SUN LIMES** 4.0 Kg Boxes, with sizes that range from 63, 54, 48, 42, 36 and 28 (every size means the number of limes per 4Kg Box).

Our Limes are **Global Gap** and **Primus Lab** Certified, and meet the **MRL requirements** for Europe, so you can be confident that you will receive an excellent product in quality and healthiness.
